

Integrated System News Bulletin

REQUEST TO REMOVE DISCHARGE DATE

**Attention: All Providers Using Clinical Module
Bulletin #001 ~ 5/25/2005 REVISED 9/19/05**

Attached is the new form providers will complete to request to have a discharge date removed on a closed episode in the Integrated System. After the request is completed, the form should be faxed to the appropriate service area liaison (see attached listing). The liaison will fax the form to the CIOB and you will be notified when the date has been removed.

The form provides three basic reasons for removing a discharge date:

- 1) To modify/correct a discharge date**
- 2) The episode was opened in error and it will be deleted**
- 3) To continue services within a previously closed episode**

The service area liaisons will apply the following criteria when approving a request to remove a discharge date to continue services within a previously closed episode. This criterion, based on service type, was developed in conjunction with the Office of the Medical Director.

- Discharge dates may be lifted to continue services within a previously closed episode if the client returns for services within 24 hours of departure from the facility for these types of services:**
 - Acute Inpatient**
 - Crisis Stabilization**
 - Emergency Rooms**
 - IMD, SNF, PHF, MH Rehab Facility**
- Discharge dates may be lifted to continue services within a previously closed episode if the client returns for services within 7 days of the discharge date for these types of services:**
 - Crisis Residential**
 - Transitional Residential**
 - Day Treatment/Rehabilitation**
 - Day Socialization & Vocational Services**
 - All Outpatient**

Providers should begin using this new form immediately. If you have questions regarding the use or processing of this form, please contact the CIOB Help Desk at (213) 351-1335. If you have questions regarding the time frames for continuing services within a previously closed episode, please contact Standards & Quality Assurance at (213) 738-2289.
